This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

1. (Currently Amended) A structure comprising a mount frame for battery modules, for fixing and a plurality of rectangular battery modules held within the frame, comprising wherein the a frame having has a plurality of openings into which the individual battery modules are inserted and removed,
wherein the frame has unevenness on an inner surface of each opening, and which frame unevenness is engaged with unevenness on a surface of each battery module, wherein the engaging surface unevenness of each battery module has a complementary shape and orientation to the engaging surface unevenness of the opening, and wherein the grooves formed by the unevenness of the engaging surface of each opening and the unevenness on the surface of each battery module is are parallel with the direction in which the battery modules are inserted and removed, and wherein each battery module is accommodated in a direction horizontal to the frame.
2. (Currently Amended) ~~A mount frame for battery modules~~ The structure according to claim 1, further comprising a stacking member for stacking a plurality of frames on each other.
3. (Currently Amended) ~~A mount frame for battery modules~~ The structure according to claim 1, wherein the frame is made of metal, and the mount frame further comprises a cooling member disposed on the frame.
4. (Currently Amended) ~~A mount frame for battery modules~~ The structure according to claim 3, wherein the cooling member is at least one selected from the group consisting of a cooling fin and a coolant channel.
5. (Canceled)
